Trails:

There are numerous trails intersecting Punkatasset and the adjacent Estabrook Woods which can get very confusing so we will keep it simple for this walk, staying mostly in Punkatasset Conservation Land.

1. From Monument Street, take the **yellow trail**.
2. Where the **yellow trail** forks, stay right.
3. Take the **yellow trail** up past Hutchins Pond, (approx. 2,700 feet from Monument Street) to where the trail forks to your left (**red** on map). (You will now enter Estabrook Woods briefly)
4. At your next fork, take a left onto the **yellow trail** to reenter Punkatasset.
5. Follow the **yellow** trail back to Monument Street.

This is roughly a 1.5 mile walk. There are many side trails that you can venture if you would like a longer walk. For the more adventurous, you can take the **blue trail loop** which is a roughly a 0.5 mile long, 150 foot climb to the top of Punkatasset Hill.
